Greetings Kerri,

Enclosed is our proposal for: **INVITATION TO BID-PRODUCE**

Providing the freshest, highest quality produce available along with superior customer service to area schools is a responsibility and a privilege that Spokane Produce takes to heart. Among those schools purchasing fresh produce from us are; Pasco schools, Ellensburg schools, Selah schools, East Valley Yakima schools, Naches schools, Coeur d'Alene schools, Newport schools, Priest River schools, Boundary County schools, Dayton schools and Superior Montana schools. Included in this proposal is a list of school district references.

Spokane Produce is an independent family owned and operated company. Spokane Produce is also **100 percent Minority Owned**. Seventy years ago, on the energetic vision of Shozo Higashi, Spokane Produce was founded. What started then as a grower cooperative is now one of the signature produce suppliers in the United States. Since the early 1940's, Spokane Produce has been providing the finest quality produce available and the highest level of customer service in the Northwest. We service a 1000-mile geographic radius spanning the states of Washington, Idaho, Montana, parts of Oregon and Wyoming. We believe in a sincere and honest partnership with our customers and realize that this relationship is what fosters growth and cooperation between a customer and a supplier.

Spokane Produce has continued to grow as a wholesale produce distributor for approximately 80 years. This long period of continued growth establishes the fact that Spokane Produce has the ability, skill and knowledge to deliver to our customer base the wide selection of fresh produce that consumers demand. We can also provide the service and additional support that enables our customers to excel. There have been numerous capital improvements made to our facility as well as additional staff added to accommodate this growth.

At Spokane Produce, we take great pride in being the market leader and trendsetter when it comes to all aspects of the produce industry. In addition, we are committed to assisting our customers to excel in the same manner. This gives them the ability to provide their customers with the highest level of quality and service.

When we analyze new programs or products, we look at what provides the finest results and value to the end user, your customer. For example, Spokane Produce utilizes the latest technology in pressurized banana ripening rooms that enable us to deliver to our customers a longer lasting banana. We have "state of the art" processing equipment and the latest in computer support abilities. We have a highly experienced buying staff, as well as a sales staff experienced in retail merchandising and food service/institutional sales that is available to assist our customers at any level of the produce industry. Spokane Produce endeavors to achieve total company involvement from our office staff to our shipping and receiving department, delivery personnel, fleet maintenance, and our processing department staff, which enables all of our departments to have a better understanding of our customer's needs on a wide and broader spectrum.

At Spokane Produce, quality goes well beyond the mere selection of specified grades for produce. Freshness, for example – how long has it been since the product was harvested. Even the best grades will deteriorate and lose flavor if freshness is not a top priority. Has the product been

handled correctly during harvest, shipping and warehousing? Improper temperatures, improper handling and storage can accelerate the rate of deterioration for fresh produce. Even the best grades of produce are subject to flavor loss and deterioration with improper temperature and handling. Flavor, taste and texture are what bring the consumer back for more. How many school children leave their partially eaten apple on their plate because of a soft mealy texture or lack of flavor? The purchasing staff at Spokane Produce seeks out the freshest, the highest quality of fruits and vegetables available, purchasing grades exceeding U.S. Number 1. Freshness is a quality factor as critically important as grade. Our purchasing staff does not look for the lowest prices available; they look for the best value – the freshest, highest quality available. The dividend is greater customer satisfaction. The consumer enjoys and appreciates the fresh flavors and textures of superior grades and better-quality fruits and vegetables. More is consumed, less is wasted, equaling better value to the consumer and better value to our school customers.

Spokane Produce is one of the few suppliers dedicated to taking the time and effort in developing a strong supplier/customer relationship on a long-term basis. At Spokane Produce, we believe we can provide our customers with an honest relationship, the finest quality fresh produce and related products and the best-administered program available. We look forward to building a relationship with you and can assure you with absolute confidence that you've made the right choice for your supplier.

Respectfully,

A handwritten signature in blue ink, appearing to read 'CH', is positioned above the printed name and title.

To Whom It May Concern:

Selah School District has partnered with Spokane Produce since 2015 and they remain one of Nutrition Services top vendors in the area of customer service, responsiveness, produce quality and reasonable pricing.

Customer service is a priority for Spokane Produce and it has shown to be true over the years. If an error occurs, even if it is made by the Nutrition Department, Spokane Produce takes steps above and beyond to get it corrected immediately. Recently the trend across all vendors is having enough employees to continue to provide services the same as pre-COVID. We have not had any issues with deliveries or unknown shortages in product and if there is an issue with delivery trucks we never know as deliveries have continued to be consistently on time. We receive an in person visit every year to look at the year ahead which is another exceptional customer service experience.

When COVID-19 closed our schools and created a high demand for a different and pre-packaged (perishable) product, Spokane Produce was there to respond as quickly as possible. They understood our need and worked quickly to provide a higher volume of items that would be better suited for an off-site meal delivery system.

As a director who is currently managing the frequent changes in guidance, rules and regulations with COVID 19, I highly recommend Spokane Produce. They are responsive, provide excellent customer service and have been an advocate for Child Nutrition.

To whom it may concern,

My name is Christine Benson, and I am the Nutrition Services Assistant Director for the Kennewick School District. Our district is comprised of over 18,000 students, and of those students nearly 60% qualify for free/reduced meals. We participate in the National School Breakfast and Lunch Program, After-School Meal Program, Summer Food Service Program, and the Fresh Fruit and Vegetable Program. All of these programs provide well-balanced nutritious meals to students.

Providing high quality nutritious meals starts with our food vendors. For the past six years, Spokane Produce has been our best produce vendor. Our district truly values their outstanding customer service and exceptional produce. They are extremely accommodating with delivery schedules, provide seasonal produce recommendations, deliver beautiful fruits and vegetables, and are quick to resolve delivery issues. The service they provided for us for our Fresh Fruit and Vegetable Program/DoD was outstanding and will be tough to beat. I would recommend Spokane Produce to any food service business/organization.

Sincerely,

Christine Benson
